

HP 250 Notebook PC

Our value-priced notebook PC with powerful essentials ideal for everyday computing on the go.

HP recommends Windows.

Built for mobile use

For professionals on the move, the HP 250 features a durable chassis that helps protect against the rigors of the day.

Carry the HP 250 from meeting to meeting. Enjoy great views on the 15.6-inch diagonal HD² display, without sacrificing portability.

Powered for business

Tackle projects with the power of the Intel® third generation Core™ i3 or i5 dual-core processors.³

Develop stunning visuals without slowing down your notebook, thanks to Intel's integrated graphics.

HP, a world leader in PCs brings you Windows 8 Pro⁴ designed to fit the needs of business.

Designed for productivity

Connect with colleagues online and email from the office or from your favorite hotspots with Wi-Fi CERTIFIED™ WLAN.⁵

From trainings to sales presentations, view high-quality multimedia and audio right from your notebook with preinstalled software and the built-in Altec Lansing speaker.

Make an impact with presentations when you connect to larger HD² displays⁶ through the HDMI port.⁷

SPECIFICATIONS

1. Windows required.
2. HD content required to view HD images.
3. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance. The 3rd Generation Intel® Core™ i5-3230M, 3rd Generation Intel® Core™ i3-3130M, and the Intel® Pentium® 2030M are not certified for Windows 7.
4. Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows 8 functionality. See microsoft.com for details.
5. Wireless access point and Internet service is required and is not included. Availability of public wireless access points limited.
6. Sold separately or as an optional feature.
7. HDMI cable sold separately.
8. Maximized dual-channel performance requires SODIMMs of the same size and speed in both memory slots.
9. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
10. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 36 GB (for Windows 8) of system disk is reserved for the system recovery software.
11. Double-layer discs can store more data than single layer discs. However, double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. Note that DVD-RAM cannot read or write to 2.6 GB single-sided/5.2 GB double-sided – version 1.0 media. Don't copy copyright-protected materials.
12. Bluetooth™ 2.1 is available with Linux operating system.
13. Bluetooth™ 4.0 is available with Windows 8 operating system only.
14. Internet access required. This product includes Norton software. First 60 days included. Subscription required for live updates afterward.
15. HP Fast Charge recharges your primary battery up to 90% within 90 minutes when the system is off.
16. Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit hp.com/go/cpc.
